*Cow flow management*

## HANDS-OFF COW FLOW MANAGEMENT

Looking for a hands-free way to manage cow flow in your robotic facilities? Look no further than our **East Rock Finger Gates** - the one-way sorting gate that's perfect for the job! With a modular design, you can easily customize the length to suit your specific needs. These gates prioritize cow comfort, featuring rounded tips and noise-reducing hardware. Plus, they come equipped with an auto-lock feature that opens or closes as needed for equipment access or to keep animals in.
