

## Best Care for Calves

Our East Rock Raised Calf Pens are perfect for hot and tropical areas that need a lot of ventilation. The slatted floor is raised and modular, which makes it possible to use a manure flush system and increase airflow. These pens are designed for easy cleaning, with slatted floors and PVC walls that can be installed and removed with ease for thorough cleaning and disinfecting.

### AVAILABLE SIZES:

- 0.8M (30") X 1.6M (63")
