

FLOOR MOUNT FREESTALL

THE BEST OPTION FOR COWS

AVAILABLE FOR ALL AGES

Our **East Rock floor mount free stall system** features an open-front design that provides ample space for your cows without any constraints. It works seamlessly with mattresses and doesn't require any posts or columns, making installation and construction more affordable. While the system is adjustable in height, changing the width will necessitate re-installation.

We also offer a wide variety of loops for animals of all ages!

FEATURES & BENEFITS

- Perfect for use with mattresses
- No posts or columns needed
- Saves on labor and concrete during construction
- Available for height adjustments in spacing width
- Available in varying lengths based on the width of the platform
- Available for adjustments due to the bolt on clamp system
- All welded products are hot dip galvanized after welding
